The activities

2005

The activities

ORBIS International has identified KEHRC and ran a Trial Project of One Year.

from March 2005
to February 2006

Achievements during the Trial Project with ORBIS in 2005-06

Activities

Achievements

| | |
|--|-------------|
| No of Eye Surgeries | 5005 |
| No of OPD in the Base Hospital | 12674 |
| No of Paying Surgeries | 343 |
| No of Refraction services at the Base hospital | 4123 |
| No of Camps | 197 |
| No of OPD in those Camps | 17320 |
| No of School Covered | 137 |
| No of children Screened | 14581 |
| no of School teacher trained | 25 |
| No of Aws Trained | 122 |

Evaluation:

- This was evaluated by Dr. Asim Sil & the team of Netra Nirayamaya Niketan, WB.
- Also evaluated by Mr. S. Sarvanan & Dr. Rahul Ali of LV Prasad Eye Institute (ICARE), Hyderabad.

Equipment supported under Orbis Project

- YAG Laser
- Synoptophore
- High Speed Autoclave
- Non Contact Tonometer
- Slit Lamp with Chair Unit

These additional support really made difference in service delivery

Leprosy-hit cataract patients treated at Dhenkanal hospital

Representatives of Swiss-based BASAID appreciate effort

PNS ■ Dhenkanal

Representatives of Switzerland-based BASAID, Dr Erich, Rosa Schnurrenberger, Felix Heinz Mueller and Dr Helga Schmidt, visited the Kalinga Eye

According to source, BASAID has been providing financial support to Orissa for community empowerment activities for years. The Kalinga Eye Hospital is working on comprehensive eye-care services to the leprosy-cured patients with financial support of BASAID since 2005.

Hospital sources said they had to face a lot of difficulties initially as leprosy-affected people were considered as untouchable. But Sasanka BasaID guided them to come to the situation and conduct activities like out-

reach eye treatment camps in three leprosy colonies in Dhenkanal, seven in Jajpur and two in Angul districts.

From among these patients 53 have undergone eye surgery and 411 have received free pairs of refractive glasses. The hospital also distributed free medicines to other categories of patients after organising screening camps attended by experienced ophthalmologists. In 2007, NGO NYSADRI also upgraded the healthcare facilities at the Khankira PHC to cater quality eye services to the people of 22 villages in Dhenkanal town.

3rd December 2008
Leprosy-hit Cataract patients treated at Kalinga Eye Hospital. Shasank Mohanty, BASIAD, Switzerland appreciated the initiative

2008

ଦେଈାନାଳରେ ନବନିର୍ମିତ କଳିଙ୍ଗ ଚକ୍ଷୁ ଚିକିତ୍ସାଳୟ ଉଦଘାଟିତ

THE TIMES OF INDIA

Mayurbhanj received Rs 25 lakh for adding value to fruit cultivation while Nabarangpur got Rs 15 lakh for its campaign against superstition and Khurda received Rs 10 lakh for eye care for all. The amount would be spent on development of the practices, said chief secretary A P Padhi after chief minister Naveen Patnaik gave away the prizes.

~~in Khurda, the administration started an eye care awareness~~
drive as number of specialists and technicians are very low. There were only 25 eye specialists and 32 qualified technicians in both private and government hospitals for around 25 lakh people of the district. "We have trained teachers, ASHA and anganwadi workers in eye care. They would alert people in rural areas for doctor consultation," said collector (Khurda) Niranjan Sahoo.

Why choose Kalinga?

Compassionate and personalized patient Care.

At KEH, the comfort and care of our patients is at the core of all our activities and processes. We treat each patient as a family member and constantly strive to go beyond treating a diagnosis. We also make sure to educate our patients about their visual problems so they can make an informed decision about their treatment options.

Quality Eye Care at affordable cost

We are certified by the NABH (National Accreditation Board for Hospitals and Healthcare Providers) which in today's time is the highest benchmark standard for healthcare quality in India. Continuous improvement in processes has increased patient satisfaction levels with pocket friendly prices making quality eye care available to all sections of society.

Cutting edge technology & Research

KEH owns a fleet of modern equipment's right from diagnostics to state of the art operation theatre. We have built a reputation of providing technical excellence and cutting edge technology which enables our Doctors to perform complex surgeries with increased precision, control and safety resulting in faster recovery and comfort for our patients. We take pride in using the best technology available for all our patients.

Experienced & skilled expertise

Our team comprises of experienced Doctors, optometrists, technicians, counsellors and support staff working together as a team before, during and after the treatment to help patient heal better and faster. We regularly conduct structured clinical and soft skill training programs that helps us improve our skills constantly which in turn positively impacts the overall delivery of eye care.

- Highly Qualified Doctors to treat your Eyes
- World Class Infrastructure and facilities with modern facilities
- We believe in precision delivery for eye care

- 20 Years Of Experience
- 30,000 Beneficiaries Avail Service Every Year
- 10,000 Surgeries Every Year
- 70 Skilled Healthcare Staff At Your Service

Our team
