KALINGA EYE HOSPITAL TRUST

2013-14

About Kalinga Eye Hospital Trust

Kalinga Eye Hospital Trust (KEHT) conducts 100% FREE eye camps in the rural areas and schools for early identification of treatable and preventable blindness. Comprehensive eye screening camps are regularly conducted in various rural areas in

every second Saturday of a month, patients identified for surgery are counselled for treatment and are transported to the like minded charitable Hospitals, who conduct surgeries under the NPCB and dropped back after the surgery. Camp patients,

pre operatively, are assessed by doctors. Patients are provided with breakfast, lunch and dinner during their stay at Charitable Eye Hospitals. Post operative follow up checkups are organized by the camp organizer to ensure continuity of care.

Message from the Chairman

Sarangadhar Samal,
Chairman
Kalinga Eye Hospital trust

Kalinga Eye Hospital Trust (KEHT) was founded by a group of volunteers of Odisha

with a mission to- "Vision as a Mission". KEHT has been working as a not-for profit organization since 1st January 2012. With the objective of decreasing the burden of blindness, to render free eye care services to the people are at real need of. So far KEHT has made a change in the lives of hundreds of patients

towards a clear vision, to see better and in preventing blindness. We are extremely grateful and thankful for all our donors and all those participating in the noble cause of serving the humanity. It requires your support and blessings to help people who are in real need of.

Celebrated Eye Donation Fortnight

Kalinga Eye Hospital Trust has observed the Eye Donation Fortnight and has selected a rural village named Saptasajya of Sadar Block to spread the message of Eye Donation. For raising awareness on Eye Donation, Kalinga Eye Hospital Trust has involved the students of

Saptasajya High School and conducted a road show on 3rd September 2013, where the children have spread the message of Eye Donation and how we can help restore a sight even after death. So children were educated for No to hurt eyes as they have life, also not

to burn, or bury them. Eyes can change lives, as they have life, Please save them to donate them.

The road show by the school children of Saptasajya High School, Dhenkanal

An Eye Screening camp was conducted at Odisha Forestry Sector Development Office on 9th August 2013

Celebrated the WSD' 2013

Kalinga Eye Hospital Trust has celebrated World Sight Day 2013 on 10th of October 2013 with the students of B.B High School, Dhenkanal where the children were awared about the importance of eye, the procedures

of taking care of eye and sight, causes of blindness, how the children can help reduce blindness from the society and the importance of the World Sight Day and why its been observed. All 979 students have

participated on the Day.

Eye Camp with TSRDS

Kalinga Eye Hospital Trust has approached Tata Steel Rural Development Society, Kalinganagar for conducting a eye screening camp in the peripheral area of the institute and on September 29th, 2013, an

eye camp was conducted and has identified 20 people from the Kalinganagar area for free cataract surgeries. These people were transported from the eye screening camp to a charitable hospital located at

Dhenkanal district and were operated for cataract at no cost. After the surgery the patients were counseled about the post operative care and were dropped back at the place, where the camp was conducted.

School Eye Screening

School Eye Screening camp at Batagaon UP School, Kankadahad, Dhenkanal

Uncorrected refractive errors are an important cause of visual impairment in many countries. In developing countries, however, it is often difficult to provide an efficient refraction service

for a variety of reasons. The proportion of children who are blind or visually impaired due to refractive errors can be used to assess the level of development of eye care services in a country. Vision testing in children is the process of detecting vision problems and is undertaken to improve prognosis and reduce disability. So Kalinga Eye Hospital Trust has focused on this segment so as to remove the avoidable blindness from its root by conducting regular school eye screening

camps in different schools located in rural and inaccessible areas of Dhenkanal by taking Medical Assistance from different charitable Hospitals. In the year 2013-14, KEHT has conducted 9 school eye screening camps through which 1411 students were screened and 68 students were identified with eye problems and they were referred to the Hospitals for further check up and treatment.

A donation of Rs 250.00 can help a child to restore his/her sight with the help of a refractive corrected glass. Let's join hand in transforming life and building our Nation.

Community Eye Screening

Odisha has been identified as one of most poor performing states in India in terms of eye care service delivery. Research studies reveal that major barriers to cataract surgery in India are: 1) poverty and cost of surgery, 2) lack of transportation/ attendants or felt need 3) lack of awareness, 4) difficult access 5) trust in surgical outcome. So as to reduce the avoidable blindness from the state of Odisha, Kalinga Eye Hospital trust has wished to conduct some free eye

screening camps by taking medical assistance from the likeminded charitable eye hospitals. At the initial phase, Kalinga Eye Trust is conducting free community Eye screening camp on every second Saturday of a month for identifying people with eye problems so that early detection can be done and people can be educated for care of their eyes and can preserve or restore their sight. 11 such eye screening camps were conducted in the year 2013-14,

1988 people were screened in the camp and 287 people were identified with cataract and were transported for surgery.

Vision as a Mission

Support Us

It is said - 'to be born as a human being is by virtue of one's greatness of his previous birth and to be born with good health is also determined by that'. All are not born affluent. To the generous, the whole world is one family. So it is our duty to help our lesser privileged brethren who need our care. Friends! Come we will unite in this noble cause, and do our best.

"Your helping hand could bring light to someone's life"

We welcome all capable persons of the society to take part in this noble cause. The minimum expenditure for one cataract surgery with IOL implantation is about Rs. 1,000 and your contribution of Rs. 1,000 will help give sight for one blind person. Here are some possible areas where your contribution would be used. You can specify a person or organization in whose name you wish to sponsor these services. The funding from the trust and its supporters will cover surgical costs, OT medication and consumables, running costs, building maintenance and screening camps.

Rs. 1000 - Donation towards one cataract surgery for one patient.

Rs. 2000 - Donation towards fuel for conducting a Eye screening camp.

Rs. 3000 - Donation towards food for camp patients for three day.

Rs. 30000 - Donation towards conducting a Eye surgery camp. (30 pts.).

Perpetual Donorship - Food or Surgery can be organised on a specific date every year to commemorate Birthday, Wedding & other Anniversary or any other memorable event dear to the donor year after year. The desired date will be annually intimated well in advance to the donor who will be afforded the opportunity to participate in the food distribution.
