

KALINGA EYE HOSPITAL

YEARS OF
LIMITLESS
DEDICATION & SERVICE

1988

1988: NYSASDRI Eye Hospital established to provide affordable eye care at Santhsara of Gondia Block in Dhenkanal district.

NYSASDRI Eye Hospital began its journey in 1988 with a mission to serve those unable to access or afford eye care. Over time, it became evident that sustaining such charitable activities required support through donations and grants. To achieve sustainability, the hospital relocated to a 2000 sq. ft. rented building in Dhenkanal Town on 20th October 2002 and was renamed Kalinga Eye Hospital & Research Centre. This shift aimed to continue serving the underprivileged while offering services to those who could afford them, ensuring the continuity of its mission.

2002

20th October 2002: Relocated to a rented 2000 sq. ft. building in Dhenkanal Town and renamed Kalinga Eye Hospital & Research Centre.

2005

March 2005: Orbis International identified Kalinga Eye Hospital & Research Centre as a potential partner, initiating a one year trial project.

Achievements during the Trial Project with ORBIS in 2005-06

Activities

	<u>Achievements</u>
No of Eye Surgeries	5005

Leprosy-hit cataract patients treated at Dhenkanal hospital

Representatives of Swiss-based BASAID appreciate effort

PNS ■ Dhenkanal

Representatives of Switzerland-based BASAID, Dr Erich, Rosa Schnurrenberger, Felix Heinz Mueller and Dr Helga Schmidt, visited the Kalinga Eye Hospital here on Monday. They exchanged views with the hospital inmates and appreciated the efforts of the hospital to provide treatment to leprosy-contaminated cataract patients.

According to source, BASAID has been providing financial support to Orissa for community empowerment activities for years. The Kalinga Eye Hospital is working on comprehensive eye-care services to the leprosy-cured patients with financial support of BASAID since 2005.

Hospital sources said they had to face a lot of difficulties initially as leprosy-affected people were considered as untouchable in the society. But Sasanka Mohanty of BASAID guided the hospital to overcome the situation and managed to conduct different programmes like out-

reach eye treatment camps in three leprosy colonies in Dhenkanal, seven in Jajpur and two in Angul districts.

From among these patients 53 have undergone eye surgery and 411 have received free pairs of refractive glasses. The hospital also distributed free medicines to other categories of patients after organising screening camps attended by experienced ophthalmologists. In 2007, NGO NYSADRI also upgraded the healthcare facilities at the Khankira PHC to cater quality health services to the people of 22 villages near Dhenkanal town.

ଦେଈନାଳରେ ନବନିର୍ମିତ କଳିଙ୍ଗ ଚକ୍ଷୁ ଚିକିତ୍ସାଳୟ ଉଦଘାଟିତ

The hospital achieved a milestone by performing 118 sight-restoration surgeries in a single day.

19th June 2016:
Khordha District received an award for innovation in eye care from the Hon'ble Chief Minister of Odisha, recognizing the "Eye Care for All" project, conceptualized by Kalinga Eye Hospital.

THE TIMES OF INDIA

Mayurbhanj received Rs 25 lakh for adding value to fruit cultivation while Nabarangpur got Rs 15 lakh for its campaign against superstition and Khurda received Rs 10 lakh for eye care for all. The amount would be spent on development of the practices, said chief secretary A P Padhi after chief minister Naveen Patnaik gave away the prizes.

In Khurda, the administration started an eye care awareness drive as number of specialists and technicians are very low. There were only 25 eye specialists and 32 qualified technicians in both private and government hospitals for around 25 lakh people of the district. "We have trained teachers, ASHA and anganwadi workers in eye care. They would alert people in rural areas for doctor consultation," said collector (Khurda) Niranjan Sahoo.

2016

2016

18th July 2016: The Second Operation Theatre of Kalinga Eye Hospital got inaugurated by Sightsavers India Team.
